Specification / Imaging Guide

AirEgress | Double-Sided Mounting Film

AirEgress mounting film is a double coated pressure sensitive 1 mil clear polyester film with 200-4985 permanent adhesive on one side and 200-4999 removable adhesive on the other side. AirEgress has a 3.2 mil clear air egress liner on the removable adhesive side to assure smooth bubble free application. This clear liner allows the graphics to be viewed after lamination. This product is designed for laminating thin flexible plastic films and papers under 10 mil in total thickness for temporary application to glass. The permanent AP adhesive is protected by a 1.5 mil clear polyester liner. This clear mounting film can be laminated by the cold laminating process without the addition of heat.

Specifications

Thickness: Carrier Film Adhesive AP Liner Air Egress Liner	1 mil 1 mil each side 1.4 to 1.6 mil 3.0 to 3.4 mil <i>(Thickness variance +/- 10%)</i>
Dimensional Stability:	Good
Temperature Ranges: Minimum application temperature Service temperature range	+40°F -40°F to 180°F
Exterior Application:	Removability of 200-4999 adhesive from standard window glass is up to 6 months under normal exposure conditions.
Adhesion To glass To standard test panels	Removable Adhesive (AP adhesive laminated to 2 mil polyester film before adhesion testing) 12 to 40 oz./in. 12 to 40 oz./in. <i>When tested according to PSTC-101 Method A with a 24 hr dwell at 70°F and 50% relative humidity. Typical Values. Individual values may vary. Test thoroughly before production.</i>
Storage Stability	One (1) year shelf life when stored at 70°F and 50% relative humidity

Application Suggestions

This clear mounting film is designed to produce two sided decals using digital prints, screen printed and other printed images for application to glass. These decals are cleanly removable. In all cases the substrates must be clean and free of dust, dirt and oil. May be used on substrates other than glass but your specific application must be thoroughly tested before production.
