

Banner Tuff | 11 mil Flexible Polyethylene Waterfast Banner

A water resistant, high density specially formulated polyethylene film with outstanding puncture and tear resistance and a non-glare finish.

Specifications

Basis Weight (Total)	235g/m ²	Opacity (%)	99	Ink Compatibility Dye based and pigmented inks
Caliper (Mils)	11.0	Gloss (@60°)	2	
Whiteness	98			

Application Suggestions

High strength film ideal for use in high print sides and/or extreme tension. For indoor and outdoor use. Does not require grommeting.

Imaging Guidelines

Printing: Banner Tuff can be used on a wide variety of printers primarily with both dye-based and pigmented inks.

Media Handling: Media should be allowed to acclimate for 48 hours in the printing environment before use. The use of cotton gloves when handling may prevent transfer of oil and dirt to the print surface, which could affect print quality.

Storage/Printing Environment: It is recommended to store and print on this media in a controlled environment at a temperature between 50 - 85° F and a relative humidity between 30 - 70 percent. Optimal printing environment: 70° F

Finishing Recommendations

Lamination: Cold lamination use only.

Shipping/Delivery: When preparing a piece to transport, roll the laminated image print side out as LOOSE as possible.
