

Dacron | 4 oz Polyester Fabric

Dacron 4 oz polyester woven fabric is one of the most versatile in our line of printing fabrics. It has a coating that produces excellent definition and depth of color when printed on solvent-based printers. The fabric edges are ultrasonically cut to eliminate fraying and head strikes.

Ink Compatibility:

Designed to be compatible with a wide variety of UV and solvent inks.

Applications:

Most widely used for flags and banners.

Physical Properties:

Fabric Weight:	4 oz/yd ²
Recommended Print Method:	Solvent & UV based inkjet printers
Service Temperature Range:	-40° F to 180° F (Reasonable range of temperatures which would be expected under normal environmental time and temperature conditions)
Durability:	6 months indoor or outdoor
Shelf Life:	1 year from date of shipment when stored at 68° F - 77° F and 50±5% RH
