Specification / Imaging Guide

Gloss Canvas | 19 mil Poly-Blend Canvas

Gloss Canvas - A 19 mil poly-blend canvas has a mild gloss finish which produces exceptionally vivid colors which are not only deep, but highly articulated, producing separation from neighboring colors, precluding bleed and drift so often found in other canvases. Perfectly emulates the color intensity observed in fine acrylic paints. Performs superbly with either pigmented or dye based inks. This premium canvas is perfect for all fine art reproductions and will not yellow, crack or curl. It can be protected with our ProTect lamination spray.

Specifications

Basis Weight (Total)	360g/m ²	Opacity (%)	92	Ink Compatibility Dye based inks only
Caliper (Mils)	19.0	Gloss (@60°)	9	
Whiteness	86			

Application Suggestions

Ideal for fine art reproduction. Indoor signage, backdrops and murals. Can be stretched without cracking. Superior color brilliance. Spray fixing or spray lamination recommended.

Imaging Guidelines

Printing: Gloss Canvas can be used on a wide variety of printers primarily with dye-based inks.

Media Handling: Media should be allowed to acclimate for 48 hours in the printing environment before use. The use of cotton gloves when handling may prevent transfer of oil and dirt to the print surface, which could affect print quality.

Storage/Printing Environment: It is recommended to store and print on this media in a controlled environment at a temperature between 50 - 85° F and a relative humidity between 30 - 70 percent. Optimal printing environment: 70° F

Finishing Recommendations

Lamination: This media is compatible with spray lamination such as our ProTect lamination spray.

Shipping/Delivery: When preparing a piece to transport, roll the laminated image print side out as LOOSE as possible.
