

## Milano Mount Clear | Pressure Sensitive Mounting Film

General purpose clear rubber-base laminating adhesive designed for high quality graphic-arts applications. Coated on each side with a high performance solution, rubber-base adhesive that exhibits excellent peel, shear and tack. Has very good adhesion to low surface energy plastics and has good resistance to mild plasticizers. Should not be used in applications that require direct exposure to UV light.

### Specifications

<b>Tape Construction:</b>	Adhesive	1 mil
	Carrier	.001" Oriented film
	Adhesive	1 mil
	Liner	80 lb polycoated kraft
<b>Temperature Ranges:</b>	Minimum application temperature	+50° F
	Service temperature range	-65° F to +120° F
<b>Adhesion:</b>	110-130 oz/in	

### Application Suggestions

Permanent mounting of photographs, prints, drawings or other images on smooth, clean and grease-free backing surfaces made of plastic, metal, or chipboard made of melamin resin. Suitable for use on foam PVC materials. Slip aid, which is often to be found on the surfaces of these boards should be removed with a suitable detergent or solvent. The clear carrier film minimizes the visibility of the substrate and therefore optimizes the image quality, especially in case of thin papers (e.g. electrostatic prints).

### Storage Stability

1 year from production date when stored in proper conditions.
